A.   Topics

The topic we decided to work on is watermarking: hide hard–to–destroy information (e.g., your signature or other personalized mark) in image or video file.

B.   Expected rough timeline

04/08/2019: Meet with instructor at office hours (4-5 pm at CSL 124) to discuss the experimental design
04/15/2019: Finish figuring out how to implement basic watermark on image
04/22/2019: Work on more optimal watermark on image
04/29/2019: Work on more sophisticated watermark
05/06/2019: Meet with instructor for final feedback on the final project report
05/09/2019: Finish the final project report
